

F. A. S. T. E. R. Family Support

*(Families Advocating Substance, Treatment,
Education and Recovery)*

Are you a parent concerned about substance use by your child, teen or young adult? You are not alone. New Hampshire has a drug problem. Many families are suffering in silence. Come hear from other parents sharing their stories and gain information, support, and resources to answer your questions and address your concerns. Drug addiction is a preventable disease when information and intervention happens early. Treatment works and recovery is possible. It is okay to ask for help. As a parent, you can play an important role in prevention and in supporting your child's recovery.
